D - RISK CONTROL SYSTEMS

D.1 Provide a general description of the risk policy of the company and/or its group, detailing and evaluating the risks covered by the system, and justifying how said systems fit each type of risk profile.

Codere considers the identification, control and management of both internal and external risk factors to be a basic element of its management system; consequently, it monitors on an ongoing basis the most significant risks which may affect the principal companies comprising the Group.

With this aim in mind, Codere has introduced the system proposed by the COSO II (Committee of Sponsoring Organizations of the Treadway Commission) reports which established an integrated framework of Internal Control and Risk Management.

In this way, the Group has a risk map making it possible to identify the risks requiring specific control and monitoring, prioritized in terms of their importance.

The principles on which the Codere Corporate Risk Management is based are the following:

1. - Risk identification and evaluation.

Codere recognizes that it is necessary to increase the capacity to identify potential events, evaluate risks and establish effective and immediate response as the ideal way to improve the management thereof.

2. - Centralization of Risk Systems

The importance of decisions in the Group requires the establishment of centralized policies, measurement procedures and exposure limits at the various levels of the organization which are defined by the Board of Directors.

3. - Global Perspective

The risk management system is conceived from a global perspective, that is, integrating all strategic and operating factors which make up the Codere risk profile, including economic, regulatory and socio-political legal factors.

4. - Compliance

Monitor the policies and procedures and the state of management of corporate risks.

For the implementation of a System for the Integral Administration of Compliance Risks the following regulatory framework is taken into consideration:

- Guidance on the risk-based approach to combating money laundering and terrorist financing (GAFI)
- International recommendations: United Nations, GAFI, GAFIC, GAFISUD, and Basel Committee.
- Corporate risk administration integrated framework. Committee of Sponsoring Organizations of the Treadway Commission (COSO).
- Local regulations on prevention and control of money laundering and terrorist financing.
- United Nations Vienna, Palermo and Merida Conventions.

By virtue of the current model developed by Codere, the Risk types identified by the Group are detailed below:

D.4 Identify and describe the processes for compliance with the various regulations affecting your company and/or group.

Codere is aware that it carries out its business activity in a sector which is as highly sensitive as is the gaming sector. This sector has been perceived in many different ways throughout its history, ranging from the strongest prohibition, with the resulting negative consequences, to the highest levels of regulation and organization, going through intermediate periods of a legal grey area in which it was neither legal nor illegal.

Given its leadership in the sector, Codere considers that it should take on the challenge of establishing guidelines of maximum excellence with the authorities, suppliers and customers, and that these guidelines should be included in its global strategy of social responsibility and corporate culture. These guidelines take specific form in the establishment of a strict Compliance Policy.

The CODERE Compliance Policy

Codere has taken as a standard of compliance the framework established by the Basel Committee in 2004. Consequently, CODERE has integrally taken on the amplitude of the Compliance Function as an independent function which identifies, provides consultancy, alerts, monitors and reports the compliance risks in organizations, that is, the risk of receiving sanctions for legal or regulatory breaches, suffering financial loss or loss of reputation as the result of failure to comply with applicable laws, regulations, codes of conduct and good practice standards (together, 'laws, regulations and standards').

Codere requires of itself and also of its associates, suppliers and customers, the strictest conformity to gaming sector regulations in every country in which it operates, as well as scrupulous respect for all financial, fiscal and labor norms wherever it carries out its activity.

The Compliance Policy shows the special commitment of CODERE with respect to legislation against fraud and money laundering, as well as to the values of honesty and integrity in corporate business practices and to the internal code of conduct taken on, in the following specific strategic objectives:

- Establish the proper activities and mechanisms for the implementation throughout the Company of an ingrained Tradition of Compliance, as an essential tool to reach and maintain the level of excellence to which Codere aspires.
- Cooperate in identifying and establishing the strictest standards of ethical conduct and applicable law in the carrying out of Codere business activities.
- Attain the proactive participation of all of the Codere Managers and Employees in relation to the Compliance policies in the various activities and geographical areas in which the Company operates, establishing the minimum mechanisms of coordination and exigency among the various actors.
- Identify, evaluate and control the principal Compliance risks, understood as those risks which may give rise to legal sanctions, material financial loss, or loss of reputation as the result of possible breach of laws, regulations, and the self-regulation standards of the organization, or of codes of conduct applicable to its business activities.

CODERE Compliance Policy execution processes.

During 2011, the following processes were developed and/or improved:

- Standardization of the International Policies for the Prevention of Money Laundering in Codere S.A.
- Approval of the corporate manual on the Prevention of Money Laundering and Terrorist Financing.
- Introduction and management of the Code of Ethics and Business Conduct which show the use of the best business practices and Corporate Social Responsibility practices in Codere S.A.
- Training of Directors, Managers and key corporate employees in the Prevention of Money Laundering and Terrorist Financing.
- Management of the Compliance Information System required by the Compliance Plan of Codere S.A.

Moreover, the structures supervised by the Compliance Committee have been reinforced with respect to the operation of Local Compliance Officials. This has occurred in Colombia and Argentina which, together with those already existing in Panama, Italy and Mexico (incorporation in the last quarter of 2011 of the new Compliance Official) provide significant reinforcement to the capabilities of the Corporate Compliance Department in its function of effectively carrying out the Compliance Policies.

The activities characteristic of the Prevention of Money Laundering (PML) and Identification of Third Parties (KYC) as well as the training of employees and managers and control of suspicious Customers or Transactions carried out in 2011 can be summarized as follows:

1. That the Bylaws of the listed companies not limit the maximum number of votes which the same shareholder can cast, and not contain any other restrictions which would hinder taking control of the company through the acquisition of its shares on the market.

See sub-paragraphs A.9, B.1.22, B.1.23 and E.1, E.2

Complies

2. That when both the parent company and a subsidiary are listed on the Stock Exchange, both publicly define with accuracy the following:

- b) The acquisition or disposal of essential operating assets, when this entails an amendment of the corporate object;

c) Transactions the effect of which is equivalent to winding up the company.

Complies Partially

Given that commercial regulations do not require this, and given that these are transactions the execution of which is currently not foreseeable (to date, Codere S.A. has not had to deal with such a type of transaction nor does it have any plans to carry out such a type of transaction), it has not been considered necessary or advisable to include mention of this in the statutory regulations and/or in the company regulations. Notwithstanding the foregoing, article 7 of the Rules of Procedure of the General Meeting of the company stipulates that the transformation, merger, spin-off, en masse assignment of assets and liabilities, transfer of the registered office outside of Spain, the dissolution of the company and, in general, any amendment of the corporate bylaws shall be the competence of the General Meeting.

- c) Transactions which the company carries out with directors, significant shareholders or shareholders represented on the Board, or with related persons ("related party transactions").

This authorization by the Board shall not be understood as necessary, however, in those related transactions which simultaneously comply with the following three conditions:

See sub-paragraph: B.1.3

Not Applicable

12. That with respect to the external directors, the ratio of the number of nominee directors to the number of independent directors be the same as the ratio of the corporate capital represented by the nominee directors to the rest of the capital.

This criterion of strict proportionality may be modified so that the nominee directors have greater weight than that which would correspond to the total percentage of capital which they represent:

1. In highly capitalized companies in which there are few or no shareholdings which are legally considered as significant, but where there are shareholders with share packages having a high absolute value.
2. When companies have a plurality of shareholders represented on the Board, and said shareholders have no ties among themselves.

29. That independent directors not remain as such for a continual period of more than 12 years.

See sub-paragraph: B.1.2

Explain

Article 3 of the Rules of Procedure of the Board of Directors of Codere S.A. establishes that it shall be endeavored that the Independent Directors not remain as such for a period of over 12 years, and in the case whereby it should be resolved to renew them in their posts in said capacity beyond said time period, the specific reasons for this must be given in the Corporate Governance Annual Report.

Additionally, article 1.11 of the same text indicates that the nature of each Directorship shall be explained by the Board before the General Meeting of Shareholders which is required to make or ratify the appointment, and shall be confirmed or, if applicable, reviewed annually in the

Corporate Governance Annual Report, after verification by the Corporate Governance Committee.

The Independent Directors Mr. Eugenio Vela Sastre and Mr. Juan José Zornoza Pérez completed 12 years as Directors of Codere S.A. on 17 June 2011. The Corporate Governance Committee, at its meeting held on 23 February 2012, with the two Directors involved having left the room during the deliberations and the vote, verified that both directors, despite the period lapsed since their initial appointment, continue to carry out their duties without being influenced by their relations with the Company, or with their significant shareholders or their directors, and that they are not affected by any of the circumstances of incompatibility which (pursuant to article 61 bis of the Securities Market Act and article 1.13 of the Rules of Procedure of the Board of Directors) would disqualify them from being classified as Independent. Likewise, the Committee considered that not only has their independence not been compromised, but that furthermore, given the current situation of the company, it is highly recommendable that both Mr. Eugenio Vela Sastre and Mr. Juan José Zornoza Pérez remain in their directorships as independent directors, in view of the especially important contribution which they make given their historical knowledge of the company and of the sector in which it operates. Consequently, the Corporate Governance Committee resolved that these two directors should remain in their posts as independent directors.

30. That nominee directors tender their resignation when the shareholder whom they represent sells his or her entire shareholding. And that they likewise do so, in the corresponding proportion, when said shareholder reduces his or her shareholding down to a level which requires the reduction of the number of the shareholder's nominee directors.

See sub-paragraphs: A.2, A.3 and B.1.2

Complies

31. That the Board of Directors refrains from proposing the dismissal of any independent director before said director finishes his or her term of appointment as stipulated in the Bylaws, unless there is good cause to do so, as determined by the Board on the basis of a report by the Appointments Committee. In particular, good cause shall be understood to exist when the director has failed to comply with the duties inherent to his or her position or is affected by any of the circumstances described in sub-paragraph 5 of section III of the definitions of this Code.

The dismissal of independent directors may also be proposed as a result of Takeover Bids, mergers or other similar corporate operations entailing a change in the corporate capital structure when said changes in the structure of the Board are made owing to the criterion of proportionality indicated in Recommendation 12.

See sub-paragraphs: B.1.2, B.1.5 and B.1.26

Complies

32. That the companies set up rules requiring directors to report and, where appropriate, resign in those cases which may harm the credit and reputation of the company, and in particular, require them to report to the Board any criminal matter of which they stand accused, as well as the subsequent procedural outcome.

That, in the event that a director should be charged with or ordered to stand trial for any of the crimes indicated in article 124 of the Companies Act, the Board is to examine the case as soon as possible and, in view of the specific circumstances, decide on whether or not the director should remain in his or her position. Moreover, the

Board is to render account thereof, in a reasoned manner, in the Corporate Governance Annual Report.

See sub-paragraphs: B.1.43 and B.1.44

Complies

33. That all directors clearly express their opposition when they consider that a given draft decision put to the Board may be contrary to the corporate interest. And that they likewise do so, especially the independent and other directors who are not affected by the potential conflict of interest, when decisions are involved which may harm the shareholders not represented on the Board.

Moreover, when the Board adopts significant or reiterated decisions in regard to which the director had made serious reservations, the latter shall draw the pertinent conclusions, and, if said director chooses to resign, he or she shall explain the reasons in a letter as referred to in the following recommendation.

This recommendation is likewise made in regard to the Secretary of the Board, even if said Secretary is not a director.

Complies

34. That when, whether as a result of resignation or for any other reason, a director leaves his or her position before the term thereof finalizes, said director explain the reasons in a letter to be sent to all of the members of the Board. And, notwithstanding said resignation or dismissal, if this is reported as a relevant fact, that the reason for the resignation or dismissal be stated in the Corporate Governance Annual Report.

See sub-paragraph: B.1.5

Not Applicable

35. That the compensation policy approved by the Board deal at least with the following matters:

a) Amount of fixed components, itemizing, if applicable, fees for attendance at Board and Committee meetings, and estimating the fixed annual compensation to which they give rise;

b) Variable types of compensation, including, in particular, the following:

i) Types of directorships to which they apply, together with an explanation of the relative importance of the variable types of compensation with respect to fixed types;

ii) Criteria for evaluating results which serve as a basis for any right to compensation in shares, stock options or any variable component;

iii) Fundamental parameters and basis for any annual premium (bonus) system or other non-cash benefits; and

iv) An estimation of the absolute amount of variable compensation to which the proposed compensation plan will give rise, in terms of the degree of compliance with the hypotheses or objectives which it takes as a reference.

c) Principle characteristics of the social welfare systems (for instance, additional pensions, life insurance and the like), with an estimation of their equivalent annual cost.

d) Conditions to be respected in the contracts of those performing senior management duties as executive directors, among which are to be included:

i) Duration;

ii) Terms of advance notice; and

iii) Any other clauses regarding contract premiums, such as indemnity or golden parachute contracts for early rescission or termination of the contractual relation between the company and the executive director.

See sub-paragraph:B.1.15

Complies

36. That only executive directors be eligible for compensation in the form of company or group-company shares, stock options or market-indexed instruments, variable compensation linked to company performance or social welfare systems.

This recommendation will not apply to the granting of shares, when this is done under the condition that directors keep said shares until they resign from their directorship.

See sub-paragraphs:A.3 and B.1.3

Complies

37. That compensation paid to external directors be sufficient so as to compensate their dedication, qualification and responsibility required by the position, but not so high as to compromise their independence.

Complies

38. That the compensation related to the company results takes into account any eventual qualified opinions stated in the external auditor's report and diminish said results.

Not Applicable

39. That in cases of variable compensation, compensation policies incorporate the technical precautions required so as to ensure that said compensation is in line with the professional performance of its beneficiaries and does not merely result from general market performance or from corporate sector activity performance or other similar circumstances.

Not Applicable

40. That the Board put to the vote of the General Shareholders' Meeting, as a separate item on the agenda, and for the purpose of consultation, a report on director compensation policy. Furthermore, that said report is made available to the shareholders, either separately or in any other way that the company considers advisable.

Said report is to focus especially on the compensation policy approved by the Board for the year already under way and, if applicable, the policy planned for future years. It shall cover all of the matters referred to in Recommendation 35, except for those points which may entail the disclosure of sensitive commercial information, and shall stress the most significant changes made in said policies with respect to the policy applied during the past year to which the General Meeting refers. It shall also include a global summary of how the compensation policy was applied during said past year.

That the Board likewise report on the role played by the Compensation Committee in drafting the compensation policy, and if external consultancy was used, identify the external consultants providing the service.

See sub-paragraph:B.1.16

Complies

41. That the Annual Report details the individual compensation paid to the directors during the year, and that it includes:

a) An itemized account of the compensation paid to each director, which is to include, if applicable:

- i) Director attendance fees and other fixed compensation;
- ii) Additional compensation as chairman or member of a given committee of the Board;
- iii) Any compensation in the form of profit-sharing or bonuses, and the reason for this compensation;
- iv) Contributions on behalf of the director to defined contribution pension plans; or the increase in the director's consolidated rights, in cases of contributions to defined benefit plans;
- v) Any indemnity agreed to or paid in the event of termination of the director's functions;
- vi) Compensation received as director of other companies in the group;
- vii) Compensation for the performance of the senior management duties of executive directors;
- viii) Any other type of compensation other than the above, no matter what type or what company in the group pays it, especially when it is considered to be a related party transaction or when its omission distorts the true and fair view of the total compensation received by the director.

b) An itemized account of any eventual granting to directors of shares, stock options or any other market-indexed instruments, detailing:

- i) The number of shares or options granted during the year and the conditions for their exercise;
- ii) The number of options exercised during the year, indicating the number of shares affected and the exercise price;
- iii) The number of options pending exercise at year-end, indicating their price, date and other exercise requirements;
- iv) Any change during the year in the exercise conditions of the options already granted.

c) Information regarding the relation, during said past year, between the compensation obtained by the executive directors and the results or other measures of company performance.

Explain

Although article 5.2 of the Rules of Procedure of the Board of Directors of Codere S.A. establishes the same obligation as that contained in the present recommendation, the truth of the matter is that currently the Company Annual Report does not include said individualized account of compensation paid, understanding said obligation to be complied with through the annual detailed, individualized and complete publication of the compensation payable to Directors in the Compensation Policy Annual Report of Codere S.A., a document which has been put to a vote by the General Meeting of Shareholders for advisory purposes in the years 2010 and 2011.

42. That when a Delegated or Executive Committee (hereinafter, "Delegated Committee") exists, the participation structure of the various categories of directors be similar to that of the Board itself and that its Secretary be the same as the Secretary of the Board.

See sub-paragraphs: B.2.1 and B.2.6

Not applicable

43. That the Board at all times is informed of the matters dealt with and the decisions adopted by the Delegated Committee, and that all members of the Board receive a copy of the minutes of the Delegated Committee meetings.

Not applicable

44. That the Board of Directors set up from among its members, in addition to the Audit Committee required by the Spanish Securities Market Act, a single Appointments and Compensation Committee, or two separate such Committees.

That the rules for the composition and running of the Audit Committee and the Appointments and Compensation Committee or Committees be stated in the Rules of Procedure of the Board, and that they include the following:

- a) That the Board appoint the members of these Committees, taking into account the knowledge, aptitudes and experience of the directors and the duties of each Committee; that it deliberate on the proposals and reports of these Committees; and that said Committees report to the Board on their activity and be held accountable for the work they have done, at the first Board plenum held after the Committee meetings;
- b) That said Committees be made up exclusively of a minimum of three external directors. This, notwithstanding the attendance of executive directors or senior management, when the Committee members so expressly agree;
- c) That the Chairs thereof be independent directors;
- d) That these Committees may obtain external consultancy, when they consider this advisable for the performance of their functions;
- e) That minutes be taken of these Committee meetings, with a copy being sent to all members of the Board.

See sub-paragraphs:B.2.1 and B.2.3

G - OTHER INFORMATION OF INTEREST

If you consider that there is any principle or relevant aspect regarding the corporate governance practices applied by your company which has not been dealt with in the present Report, mention this below and explain what it consists of.

In relation to sub-paragraph B.1.3, the Executive and Nominee Directors were reelected on the basis of the prior report by the Appointments and Compensation Committee, the functions of which were subsequently taken on by the Corporate Governance Committee.

In relation to sub-paragraph B.1.13, it should be pointed out that although the Rules of Procedure of the Board of Directors reserves for the plenum of the Board the power to resolve in regard to Senior Management indemnity clauses and the contract terms of Executive Directors, of the 5 beneficiaries of guarantee or golden parachute clauses indicated in the reply to this question, 4 were not authorized by the Board of Directors, given that their contracts were entered into prior to the date on which the Rules of Procedure of the Board of Directors came into effect, whereas the 5 have been duly authorized during the year 2011.

In relation to sub-paragraph B.1.26, it should be pointed out that article 3.2 of the Rules of Procedure of the Board establishes that it shall be endeavored that Independent Directors not remain as such for a period beyond 12 years, and that in the case whereby it is resolved to renew them in their post beyond said time period, the specific reasons for this must be explained in the Corporate Governance Annual Report. In this regard, see the reply to Recommendation F.29.

In relation to sub-paragraph B.1.29, it should be pointed out that the third Committee of the Board of Directors of Codere S.A., the Compliance Committee, met on six occasions in 2011. Additionally, the nine meetings of the Appointments and Compensation Committee which are indicated correspond to the meetings of the Corporate Governance Committee, the Committee which as from June 2010 took over the functions of the previous Appointments and Compensation Committee.

In relation to sub-paragraph B.2.1, it should be pointed out that article 15 of the Rules of Procedure of the Board of Directors of Codere S.A. establishes that when the Chairman of the Compliance Committee is not an Independent Director the reasons for said circumstance must be indicated in the Corporate Governance Annual Report. In this respect, the Chairman of the Compliance Committee, Mr. José Ignacio Cases is a Nominee Director, with his appointment as Chairman of said Committee owing to his experience and knowledge gathered when he was Secretary General of the Gaming Commission of the Spanish Ministry of the Interior, and as Full Professor of Political Science at the Carlos III University in Madrid, consequently making him one of the most highly informed persons in the matter.

In relation to sub-paragraph B.2.2, the function of establishing and supervising a mechanism allowing employees to communicate confidentially, and if deemed appropriate, anonymously, any potentially significant irregularities, especially those of a financial and accounting nature,

corresponds, in accordance with the Rules of Procedure of the Board of Directors of Codere S.A., to the Compliance Committee.

In paragraph C.3 regarding the detail of the relevant transactions between the company or companies of its group and directors or senior managers of the company, we point out with reference to the Director Mr. José Ramón Romero Rodríguez, a contractual relation of service provision in the amount of 488,000 euros, although the service provider is the law firm Despacho Loyra Abogados, of which said Director is Partner Manager.

Any information, clarification or nuance related to the preceding sections of this report may be included in this section.

Specifically, indicate whether or not the company is subject to any legislation other than Spanish legislation in matters of corporate governance and, if applicable, include any information which it is required to provide which differs from the information called for in this report.

Binding Definition of Independent Director:

Indicate whether any of the independent directors has or has had any relation with the company, its significant shareholders or its managers, which, had it been sufficiently significant or important, would have made it impossible for the director to be considered independent in accordance with the definition contained in section 5 of the Unified Code of Good Governance.

Additional information to the Corporate Governance Annual Report Form presented by the company "CODERE S.A." pursuant to the stipulations of the Sustainable Economy Act which in its Final Provision Five introduced a new chapter VI under title IV of the Securities Market Act, entitled "The Corporate Governance Annual Report".

Sustainable Economy Act 2/2011 has amended Securities Market Act 24/1988, introducing a new chapter VI entitled "The Corporate Governance Annual Report", which changes the legal system in effect until now and introduces new reporting obligations for public listed companies.

Said chapter includes article 61 bis, which repeals and redrafts the content of former articles 116 and 116 bis of the Securities Market Act (LMV) and requires that the Corporate Governance Annual Report include a description of the principal characteristics of the internal systems of risk control and management, in relation to the financial reporting process.

In view of this, and insofar as the legislative processes required to develop a new CGAR form, the one corresponding to the year ended at 31 December 2011 uses the contents and structure of the form established in Circular 4/2007 of the Spanish National Securities Commission, whereas the contents included in the Sustainable Economy Act in regard to corporate governance, not included in said form, are incorporated by the preparation of the present document.

The foregoing having been said, we shall now specifically and in an individualized manner analyze those contents incorporated by the Sustainable Economy Act.

- **Description of the principal characteristics of the internal systems of risk control and management in relation to the financial reporting process (art. 61 bis 4, h LMV).**

Likewise, the various General Managements are responsible for effective introduction in their area of activity.
- (iii) The Audit Committee is responsible for supervising the Internal Control System. Among its functions, as Delegated Committee of the Board of Directors, are the following:

Indicate whether the following exist, especially in regard to financial reporting:

- 1) Departments and/or mechanisms in charge of: (i) the design and review of organizational structure; (ii) clearly defining lines of responsibility and authority, with an adequate distribution of tasks and functions; and (iii) seeing to it that sufficient procedures exist for their proper dissemination in the company.

The Company has an organizational structure which has developed the major lines of responsibility and authority in the various processes, for each business unit and for each significant geographical area of the Group. The Human Resources Managements and Operational Managements participate in its design and revision. These responsibility and authority lines are communicated at the required levels by means of different levels of formalization.

Likewise, the Company has a clear and up-to-date policy of powers resulting in the maximum exponent of lines of authority.

The Board of Directors, at the proposal of the Company President, reserves for itself the power to appoint and eventually dismiss Senior Management, whereas the Corporate Governance Committee sets the guidelines and supervises actions related to the appointment, selection, career development, promotion and dismissal of managers, in order for the company to have the highly qualified personnel its requires for its management.

- 2) Code of Conduct, organ of approval, degree of dissemination, principles and values included (indicating whether specific mention is made of the recording of transactions and financial reporting) organ in charge of analyzing breaches and proposing corrective action and sanctions.

The Board of Directors is the organ in charge of approving and disseminating the Code of Ethics and the Security and Compliance Corporate Management is the area in charge of overseeing its compliance and of proposing corrective action and sanctions.

During 2011 the Company has worked to communicate and disseminate the Code of Ethics and Business Conduct throughout the Group.

Among the values contained in the Code of Ethics and Business Conduct can be found, among the values related to the Codere Group Environment (Section V of "The Codere Group Environment"), article 5.2 "Truthful, adequate and useful information", which describes how the Codere Group is to report on its policies and actions in a truthful, adequate, useful and congruent manner. Specifically, in relation to economic-financial information, said information, especially the Annual Accounts is to faithfully reflect the reality of the economic and financial situation as well as the net worth of the company in accordance with generally accepted accounting principles and the applicable international financial reporting standards.

In this regard, no professional shall conceal or distort the information of the Codere Group accounting records and reports.

A lack of honesty in financial reporting is in violation of the Code of Ethics and Business Conduct, considering also a lack of honesty the delivery of incorrect information, the incorrect organization of information or the intent to mislead those receiving it.

3) Whistleblower Channel, making it possible to communicate to the Audit Committee any financial and accounting irregularities, in addition to eventual breaches of the code of conduct and irregular activities in the organization, and informing whether said information is confidential.

The Company has a confidential whistleblower channel through an email address, ordinary mail and a toll-free telephone number. Said Whistleblower Channel has been disseminated to employees together with the Group Code of Ethics and Business Conduct.

The Whistleblower Channel is expected to be fully operative in all modalities and all countries in 2012.

The organ in charge of its management is the Security and Compliance Corporate Management, the Management in charge of analyzing confidentially all reports received, proposing corrective action and, if applicable, the pertinent sanctions.

4) Programs for periodical training and updating of personnel involved in preparing and revising financial information, and in the FRICS evaluation, which are to cover at least accounting standards, auditing, internal control and risk management.

There are training plans for personnel having responsibilities in preparing financial information, in the areas of accounting standards and auditing. During the year 2011, the Company has carried out training plans in regard to internal control for the maximum heads of Business Units, as well as specific training plans regarding internal control for certain areas, prompted by the project for improving the Financial Reporting Internal Control System in the Codere Group.

Risk Evaluation

What are the principal characteristics of the risk identification process, including those related to error or fraud, in regard to the following:

1) The process exists and is documented:

The Codere Group has an identification process for the principal risks which may affect the Group, including among all the identified typologies, specific financial reporting risks. The result of this process is a Risks Map containing the residual risks having the greatest impact and the greatest probability in the Codere Group. Said Map is updated annually.

For critical processes and significant companies, considering in addition that the processes in the different units or locations should be evaluated individually, there are risk and control matrixes where the critical processes are documented, with identification being made of the principal risks affecting said processes, as well as the key controls existing in order to mitigate the material risks having an impact on financial reporting.

2) If the process covers all of the financial reporting objectives, (existence and occurrence; completeness; valuation; presentation, disclosure and comparability; and rights and obligations), if it is updated, and how often.

In the Financial Reporting Risk identification process, in an aim to guarantee the reliability and accuracy of the financial information, evaluation is made of the possible impact in the following categories:

- Existence and occurrence: Transactions, facts and all other events exist and have been recorded at the proper time
- Completeness: The reporting reflects all transactions, facts and all other events with respect to which the company is an affected party.
- Valuation: Recording and valuation are made of all transactions, facts and other events in accordance with the applicable regulations.
- Transaction Cut-off: transactions are recorded in the proper period in accordance with their accrual.
- Presentation, disclosure and comparability: the transactions, facts and all other events are classified, presented and disclosed in the financial reporting in accordance with the applicable regulations.
- Rights and obligations: The financial reporting reflects the rights and obligations at the corresponding date in accordance with the applicable regulations.

The objective is to determine in a reliable manner the possibility that a given risk will occur and in such a case, its impact on the financial statements, in order that it will be possible to prioritize this and draw up a mitigation plan.

This is an ongoing process which makes it possible to improve the design and efficacy of the controls and to minimize the risks related to financial reporting. The process of identifying financial reporting risks was recently analyzed in the second quarter of 2011, and it is established that said process will be revised and updated on an annual basis.

3) The existence of a process for identifying the consolidation perimeter, taking into account, among other aspects, the possible existence of complex corporate structures, instrumental or special-purpose entities.

The Company consolidation perimeter is clearly identified and is updated monthly, making it possible to know of all Codere Group subsidiaries, the effective ownership percentage, and the degree of influence in said subsidiaries.

Any changes in the Group structure are communicated monthly to all those taking part in the financial reporting process and who need to know of such changes.

4) If the process takes into account the effects of other risk typologies (operational, technological, financial, legal, reputational, environmental, etc.) insofar as they affect the financial statements.

Given their importance for the activity and presence of the Codere Group, the most significant risk typologies considered have been the regulatory, socio-political, financial, technological, reputational and operational with respect to each Business Unit.

5) What governance organ of the company supervises the process.

In the final instance, the Board of Directors, through the Audit Committee, in accordance with article 14 of the Rules of Procedure of the Board, is in charge of "Periodically revising the internal control and risk management systems, in order for the principal risks to be adequately identified, managed and disclosed.

The Audit Committee is in charge of managing the Control and Risk Management Policy in which at least the following will be identified: the various types of risks, an acceptable risk level, measures foreseen to mitigate the impact of the identified risks, should they materialize, and the reporting and internal control systems which will be used to control and manage the foregoing, including contingent liabilities and off-balance sheet risks.

Control Activities:

Procedures for the review and authorization of financial reporting, and the description of the FRICS, to be published in the securities markets, indicating those in charge, as well as documentation describing cash flows from activities and controls (including those related to fraud risk) for the different types of transactions which may materially affect the financial statements, including the year-end closing procedure and the specific review of relevant opinions, estimations, valuations and projections.

The Company has procedures for the review and authorization of financial reporting to be published in the securities markets. Said procedures are in regard to:

- Procedures for review and authorization of the individual financial statements for each subsidiary of the Group.
- Procedures for review and authorization of the consolidated financial statements.
- Procedures for review and authorization of the information sent to the securities markets.
- For each significant process, descriptive documentation regarding the cash flows from activities carried out by the Economic Financial Management as well as by the rest of the areas participating in the financial reporting.

Said procedures for financial reporting review and authorization contain procedures regarding reviews of relevant opinions, estimations, valuations and projections forming part of the monthly closing procedure applied by the Codere Group.

During the second half of 2011, as a result of the analysis of the risks and the controls of processes having a significant impact on financial reporting, a financial reporting certification procedure has been proposed as an improvement, to be implemented during 2012.

Financial reporting internal control policies and procedures (among these, access security, control of changes, operation of changes, operational continuity, and segregation of functions) undergone by relevant processes of the entity in relation to the drafting and publication of the financial reporting.

The Company has guidelines and rules of action for managing information security. Said guidelines apply to the systems taking part in the generation of the financial reporting, and are in regard to the use of computer resources, access to user systems and management, the protection of networks, systems, databases and applications and the management of backup copies.

The Information Systems Management is in charge of defining and proposing security policies, except for the physical safety of the Data Processing Center which is the responsibility of the Security and Compliance Management.

Financial reporting internal control policies and procedures aimed at supervising the management of activities sub-contracted to third parties, as well as those aspects of evaluation, calculation or valuation entrusted to independent experts, which may materially affect the financial statements.

There are no relevant areas of activity subcontracted to third parties that may affect the financial reporting; consequently, it has not been deemed necessary to draft a procedure for the selection of the activities carried out by them.

Nevertheless, in the case of outsourcing of some services related to financial reporting, the contract with the supplier establishes the levels of service which are supervised by the Information Systems Management.

Information and Communication:

A specific function for defining and keeping accounting policies (area or department of accounting policies) up to date, and resolving any doubts or conflicts resulting from the interpretation thereof, maintaining fluent communication with those in charge of the transactions in the organization, as well as an accounting policy manual updated and communicated to the units through which the entity operates.

Within the Economic Financial Management there is a specific function responsible for resolving any doubts in regard to the interpretations of the regulation. There is an Accounting Policy Manual at the Group level applicable to all of the Business Units. Said Manual is reviewed with the aim to update it periodically.

Mechanisms for gathering and preparing the financial information using homogenous formats applied and used by all units of the entity or of the group, which form the basis for the principal financial statements and the notes, as well as the information detailed in regard to the FRICS.

The Company has homogeneous financial information reporting for all of the Group units which allows the Company to make complete monthly closings. Said reporting contains all the information required for drafting the principal financial statements and their corresponding notes. In addition, it should be pointed out that a large percentage of the financial information of the Group is integrated in the Corporate Information Systems.

Supervision of system operation:

As provided in article 14 of the Rules of Procedure of the Board of Directors, the Audit Committee has among its functions the following:

- Supervise the internal audit services and monitor the independence and efficacy of the internal audit function; propose the selection, appointment, reelection and dismissal of the head of the internal audit service; propose the budget for said service; receive periodical information regarding its activities; and verify that senior management takes into account the conclusions and recommendations of its reports.
- Periodically review the internal control and risk management systems, in order to adequately identify, manage and disclose the principal risks.
- Supervise the process for the drafting, presentation and completeness of the financial reporting related to the Company and, if applicable, to the group, reviewing compliance with the regulatory requirements, the proper delimitation of the consolidation perimeter and the correct application of the accounting criteria.
- Report, at least once a year, to the Board of Directors in matters of risk control and any malfunctions detected, if applicable, in the internal audit reports or in the exercise of the above listed functions.
- Once a year draft an annual report containing the activities carried out by the Committee

A. Internal Audit Function

The Codere Group has an Internal Audit Management which is directly under the Board of Directors through the Audit Committee, which supervises the internal audit services.

Among the Internal Audit Management functions is that of supervising the compliance, efficacy, and efficiency of the internal control systems, as well as the reliability and quality of the financial and operational information.

This Management is corporate and is present in all countries where the Group has a significant presence. Its entire personnel devote full time to this function, and do not engage in any functions other than those related to internal auditing.

The Audit Committee annually approves the audit plans presented by the Audit Management and, at least once a year, is informed of the result of the work carried out. In the exercise of its functions, the Audit Committee is periodically informed of the internal audit activities and

verifies that Senior Management take into account the recommendations and conclusions of its reports.

B. Scope of evaluation of the Internal Control System with regard to Financial Reporting.

The Internal Audit Department, in executing its Annual Plan approved by the Audit Committee, carries out continual supervision of the internal control system of the Codere Group, in order to ensure the control of the reliability of the financial reporting and the operational procedures.

The Audit Department has a pluri-annual supervision plan approved by the Audit Committee. This Plan calls for the review of all critical business processes in all of the Group companies and geographical locations (including information systems) over a three-year period, with the exception of specific areas and processes, which, given their special relevance, are reviewed annually. Specifically, in the second half of 2011 a process was carried out to identify and update financial reporting risks, and draw up the corresponding risk and control matrices for each business cycle identified as material.

Likewise, a specific work plan has been designed to evaluate the operation and efficacy of the identified controls, which will allow it to serve as supervision of the entire Financial Reporting Internal Control System. This Work Plan will be carried out during 2012 and will result in a specific report on the operation of the Financial Reporting Internal Control System.

C. Communication of results and corrective measure action plans.

The Audit Committee is informed quarterly of the principal conclusions and recommendations manifested by the Internal Audit Committee in its reports, as well as of the action plans taken on with regard to corrective measures. It is likewise informed of compliance with these action plans.

If the entity has a procedure for discussion by means of which the auditor, the internal audit function and other experts are able to communicate to senior management and to the Audit Committee or entity directors the significant weaknesses of the internal control system identified during the annual account review processes or any other review processes entrusted to them. Likewise the entity will report whether it has an action plan which seeks to correct or mitigate the weaknesses noted.

The Audit Committee meets at least once every three months (prior to publication of the regulated information) in an aim to obtain and analyze the information required for compliance with the competences with which it is entrusted. At said meetings the Group Annual and Half-yearly Accounts and the intermediate quarterly declarations are reviewed, as is all other information disclosed to the market.

These meetings are also attended by the Economic Financial Management (in charge of preparing the financial reporting) and the Internal Audit Management (with the periodical information on activities), as well as by the external auditor when said auditor is called upon to communicate the results of its work, in an aim to monitor the correct application of the accounting regulations in effect and the reliability of the financial reporting.

In any event, and at all times prior to year-end, the external auditor has a meeting with the Audit Committee at which the principal identified matters of interest and the aspects detected by the auditor at year-end are deliberated on.

On its part, the Group auditor has direct access to Group Senior Management, holding periodical meetings in order to obtain the information required to carry out its work as well as to communicate any control weaknesses detected during the course of its work. With respect to this latter aspect, on an annual basis the external auditor presents a report to the Audit Committee which details the internal control weaknesses detected in its work. This report incorporates the comments of the Group Management and, if applicable, any action plans which have been put into practice in order to remedy the corresponding internal control weaknesses.

If the FRICS sent to the markets has been subject to review by the external auditor, in which case the entity should include the corresponding report as an Annex. Otherwise, it should explain the reasons for this.

The FRICS information sent has not been subject to review by the external auditor given that the improvements and recommendations resulting from the Financial Reporting Internal Control System review process carried out in the second half of 2011 have just begun to be introduced, with review by the external auditor being foreseen once these have been fully introduced in 2012.

There are no securities traded outside of the Community regulated market.

For said resolutions to be adopted the favorable vote of 75% of the capital present or represented at the General Meeting shall be required, when at the second call, the meeting is attended by shareholders representing 25% or more but less than 50% of the subscribed voting capital.

Additionally, article 7 of the Rules of Procedure of the General Meeting of Shareholders of Codere S.A. provides that the following is the competence of the General Meeting:

"h) The transformation, merger, spin-off or assignment en masse of assets and liabilities and the transfer of the registered office outside of Spain and dissolution of the Company, and, in general, any amendment of the Corporate Bylaws".

Likewise, article 20.2 of the Rules of Procedure of the General Meeting of Shareholders of Codere S.A. in accordance with the provisions of the Corporate Bylaws indicates as follows:

- **Any restriction on the transferability of securities and any restriction on voting rights (art. 61 bis 4,b LMV).**

Restriction on transferability of securities

Codere S.A. does not establish in its Bylaws any restriction on the transfer of its securities.

Restriction on voting rights

The Corporate Bylaws of Codere S.A. do not place any restriction on voting rights.

- **Information regarding the powers of the members of the board of directors and, in particular, those related to the possibility of issuing or repurchasing shares (art. 61 bis 4,c,3, LMV).**

Codere S.A. appointed Mr. José Antonio Martínez Sampedro as Chief Executive Officer, and delegated in him all powers permitted by law and the corporate bylaws to be delegated by the Board of Directors.

Additionally, it must be pointed out that Codere S.A. granted general power of attorney without the possibility of substitution, to Ms. Encarnación Martínez Sampedro and to Mr. Luis Javier Martínez Sampedro. In both cases, power of attorney was approved by the Board of Directors and furthermore recorded in the Trade Registry.

The remaining members of the Board of Directors lack power of attorney to issue or repurchase company shares, or any other type of power of attorney.

In addition, at the General Meeting of Shareholders held on 9 June 2011 the following resolutions were adopted:

SIX. - Authorization for the acquisition of treasury stock, either directly or through Group companies.

1. Rendering null and void, in the part thereof which has not been used, the authorization for the acquisition of treasury stock granted under point five of the agenda of the General Meeting of Shareholders held on 10 June 2010, to authorize, in accordance with applicable law, the derivative acquisition, at any time and as often as Codere, S.A. deems advisable, either directly or through any of the subsidiaries of which it is the parent, of treasury stock, fully paid up, by means of purchase-sale or by any other legal title for valuable consideration.

The minimum acquisition price or consideration shall be the par value of the acquired treasury stock and the maximum price shall be the result of increasing by 20% the trading value at their acquisition date.

This authorization is granted for the term of eighteen months as from the date of this General Meeting, and is expressly subject to the limitation that at no time shall the par value of the treasury stock acquired under this authorization, added to that already owned by Codere, S.A. and any of its subsidiaries, exceed the maximum permitted by Law at any given time.

It is expressly stated that this authorization may be used totally or partially for the acquisition of treasury stock to be delivered or transferred to Consultants, Senior Management, Management and workers of the Company or of companies belonging to its group, either directly or as a consequence of the exercise by the former of their option rights, all of the foregoing in the context of remuneration systems indexed to the trading value of the shares of Codere, S.A. (ART. 146.1a) of the Revised Text of the Capital Companies Act).

2. Empower the Board of Directors, in the broadest terms possible, to exercise the authorization under this resolution, and to carry out the rest of the provisions contained herein, said powers being able to be delegated by the Board of Directors to any Director, the Secretary or the Deputy-Secretary of the Board of Directors, or to any other person expressly granted power of attorney by the Board of Directors in said regard.

- **Information regarding any significant agreements entered into by the company and which will enter into force, be amended or conclude in the case of a change in the control of the company as the result of a takeover bid, and the effects thereof, except when disclosure of this would be seriously harmful to the company. This exception will not apply when the company is legally required to publish this information (art. 61 bis 4, c, 4, LMV).**

In this respect, we can point out the following significant agreements:

1. - Senior Credit Line: On 15 June 2010 Codere S.A. renewed its senior credit line of 100 million euros which matured in October of 2010. The new Senior Financing Agreement (multi-currency and multi-borrower) increased the sum total to 120 million euros, extendible to 180 million euros at a +4.50% Euribor/Libor interest rate with a duration of three years.

In the case of a change in control of Codere S.A., the credit line would mature early, and all amounts owed under the credit would be immediately paid within the following two business days.

2.- Bond Issue for 100 million Euros: on 22 July 2010 the subsidiary of Codere S.A., Codere Finance (Luxembourg) S.A., launched a bond issue maturing in 2015, for a nominal value of 100 million euros, which was fully subscribed on that same date. The issue, which was guaranteed by Codere S.A. and several of its subsidiaries, is in addition to the bond issues carried out by Codere Finance (Luxembourg) S.A. since June of 2005, and which in aggregate entail a nominal amount of 760 million euros.

In the case of a change in control of Codere S.A., the bond holders would be able to request the early repurchase of all or part of their certificates.

Additionally, there is another series of contracts with service providers, which provide for early termination in the case of a change in the control or ownership of Codere S.A. (or of the supplier) without the need of the written consent of the other party in advance; although we consider that these agreements are of relative importance.

- **Information regarding agreements between the company and those holding administration and management posts or employees, providing for indemnity when these individuals resign or are dismissed unfairly or if the labor relation terminates as the result of a takeover bid (art. 61 bis 4, c, 5, LMV).**

In this respect it should be pointed out that several members of the management team of Codere have, at today's date, employment contracts which include provisions for special payments in the case of dismissal, in addition to any compensation which corresponds to them by law. The overall value of these payments, should they need be applied, would amount at 31 December 2011 to 1.42 million euros, whereas at 31 December 2010 said sum amounted to approximately 1.179 million euros.
