

PRESS RELEASE

CODERE AND EVOLUTION ROLL OUT LIVE ROULETTE ON EGMS IN LATIN AMERICA

Madrid, 5 November 2013. The CODERE Group, a leading Spanish multinational in the private gaming sector in Europe and Latin America and Evolution Gaming, the world leader in video-streamed Live Dealer gaming, has announced that it has teamed up with Codere to introduce Live Roulette on EGMs (Electronic Gaming Machines) in Latin America. The move brings Evolution's multi-award-winning Live Casino content to EGM screens for the first time.

An initial roll out went live in selected Codere gaming halls in October, 2013. The Live Roulette games are streamed in real time from Evolution's Live Casino studios to the screens of the networked EGMs. Players can place bets, see the live dealer and follow every spin of the ball on the real Roulette table in the same way as if they were playing Evolution Live Roulette on a PC/Mac or Tablet. The Live Roulette roll out could be extended to other Codere venues in Latin America and, thereafter, potentially to other markets in Europe.

Felipe Ludeña, Chief Information Officer at Codere, said: "We are confident that Evolution's Live Roulette on EGMs will be both a real crowd-puller and revenue-driver. Evolution is recognised as the market-leading Live Casino provider in Europe. Their live content provides us with the perfect opportunity to gain first-to-market advantage in Latin America with games that are literally 'as real as it gets'".

Evolution CEO Jens von Bahr added: "We are delighted to be working with Codere in a new market and in this exciting new area of Live Casino play. Partnering with such a revered, market-leading player in Latin America and Spain offers Evolution access to countless new players, who expect the most engaging and interactive content. It has always been our plan to make our live streams available to multiple interfaces. This initiative fits perfectly with our mission to deliver a flawless Live Casino experience across multiple channels and devices. This is another Evolution first, and one that redefines the quality and excitement of the gaming experience available on a gaming terminal screen."

The CODERE Group

CODERE is a Spanish multinational group and a key player in the private gaming sector in Europe - Spain and Italy- and Latin America - Argentina, Mexico, Panama, Colombia, Uruguay and Brazil. The company, which employs more than 21,100 people, is the only company in this industry that is publicly traded in Spain. Codere currently operates 54,222 gaming machines, 178 gaming halls, 1,380 sports betting points, participates in the management of 4 horse racetracks and develops online games in Italy, where it holds the appropriate licenses.

Evolution Gaming

Evolution Gaming is the world's leading provider of video-streamed live dealer gaming solutions, working with more top-tier brands than any other provider in this market.

Founded in 2006, Evolution revolutionised the Live Casino platform, transforming it into a 'must have' for gaming operators by enabling players to take their virtual seats at real-time live dealer casino games streamed in TV-quality video to their PC screens.
